

# B1 iPayment – Installation guide

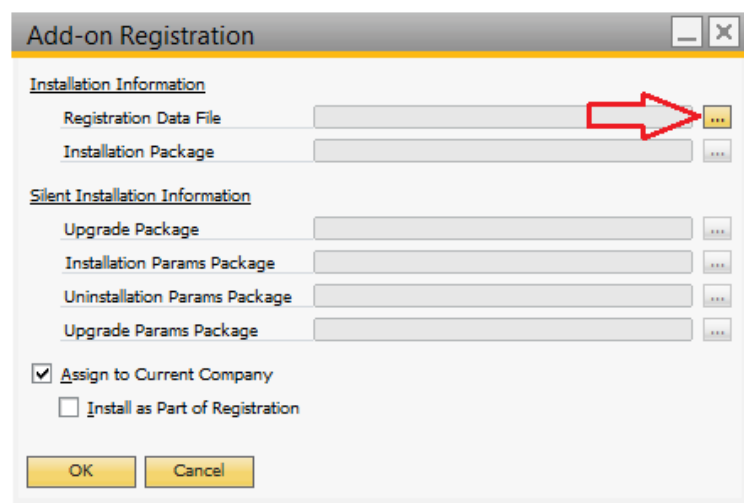

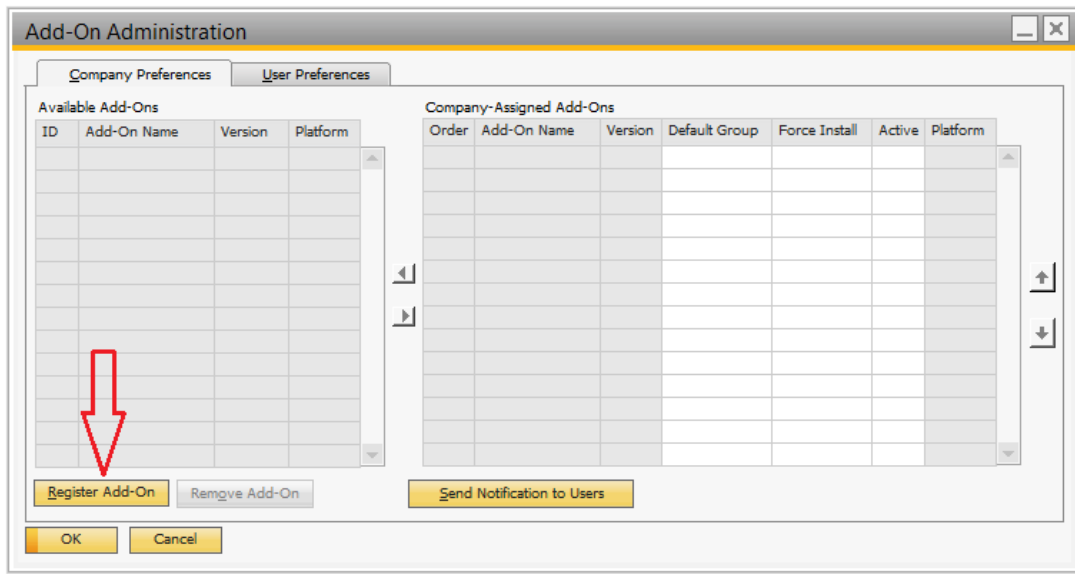

[See online video on this install guide](#)

Prerequisites:

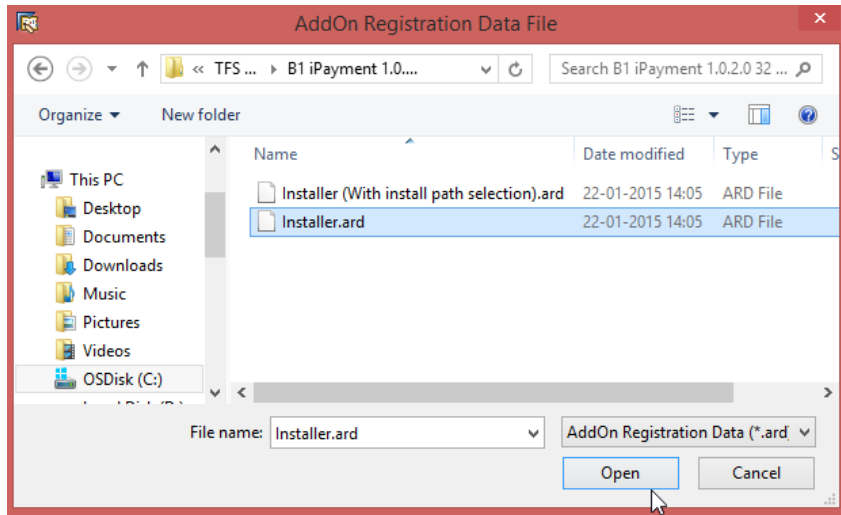

- .NET Framework 4.7
- Visual C++ 2013 Redistributable (x86/x64 depending on SAP client)
- SAP Business One 9.2/9.3

Installation:

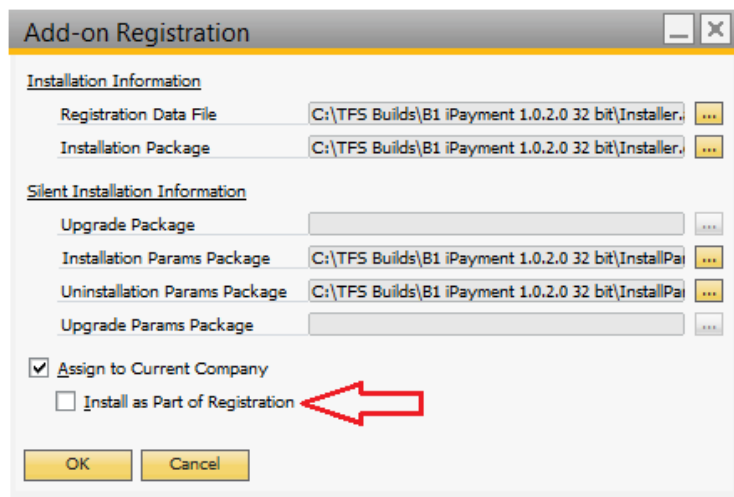

In the main menu go to Administration -> Add-Ons -> Add-On Administration -> click Register Add-On

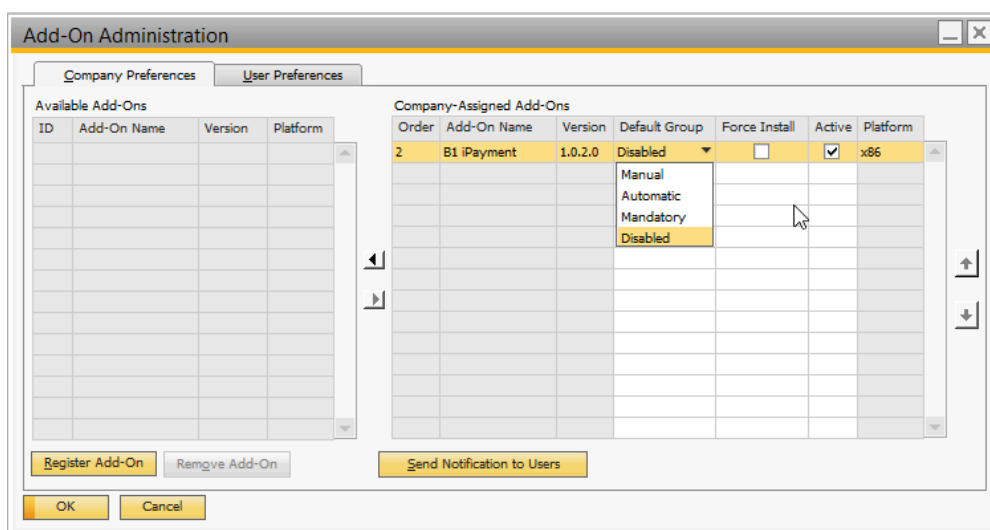

After clicking the “...” button select the .ard file like shown here

Select Install as Part of Registration if you want to install the add-on after registration.

Click OK and the installation process will begin.

Select how you want the add-on to start as default in the column "Default Group".
